Miss Toaddy's 5th Grade

Here's what we will be up to this month!

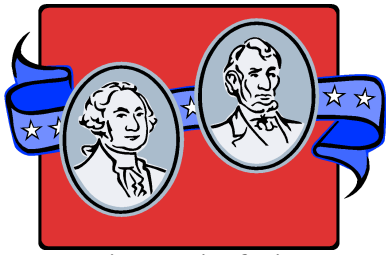

Reading - We have just completed a unit on strong characters and their contributions to the world. Next, students will be given the opportunity to explore poetry and figurative language! Students will be writing many fun and creative poems throughout this unit!

Writing - Currently we are working on completing our research unit. Students have been working hard to find information particular to the country that they picked! They will be creating websites based on this information that they found. We will then move on to a mini unit that encourages reading about historical events and writing about them!

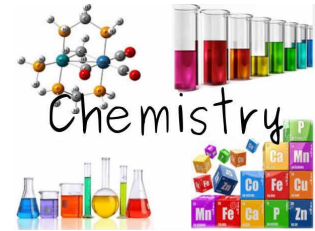

Math - We are in the middle of our unit on decimals. When we complete this unit, we will focus on geometry and graphing. **Please remember to keep working on those multiplication facts at home so that it comes easily to students as they are working on new material that they learn!** The better students know their basic facts; the more confident they will be with the material we are working on in 5th grade! Please note, students have access to two websites for practicing their math facts. www.IXLmath.com and www.everydaymathonline.com. They have both passwords in their possession.

Social Studies - We have just begun our newest unit! Students will be studying the presidents of USA! We will study the flag, the jobs of the president, and American symbols. Students will be writing president speeches that they will be giving at the end of the unit. Please stay tuned for more information.

Science - We are in the middle of our scientific method unit. When we finish this unit, we will be moving on to chemistry exploration.
